

EXCELLENCE BEYOND MANUFACTURING

DEVELOPMENT SERVICES

Accelerating Your
Time to Market

The One-Stop Shop Experience from Development to Commercial Supply

At Aenova, we are proud to be your trusted partner for full-service development, innovation and technology support throughout the product lifecycle.

- Decades of proven experience in drug formulation and product development
- Highly skilled scientists and engineers complemented by a dedicated project management team
- Covering all relevant dosage forms, HPAPI handling (up to OEB 5) and clinical trial management

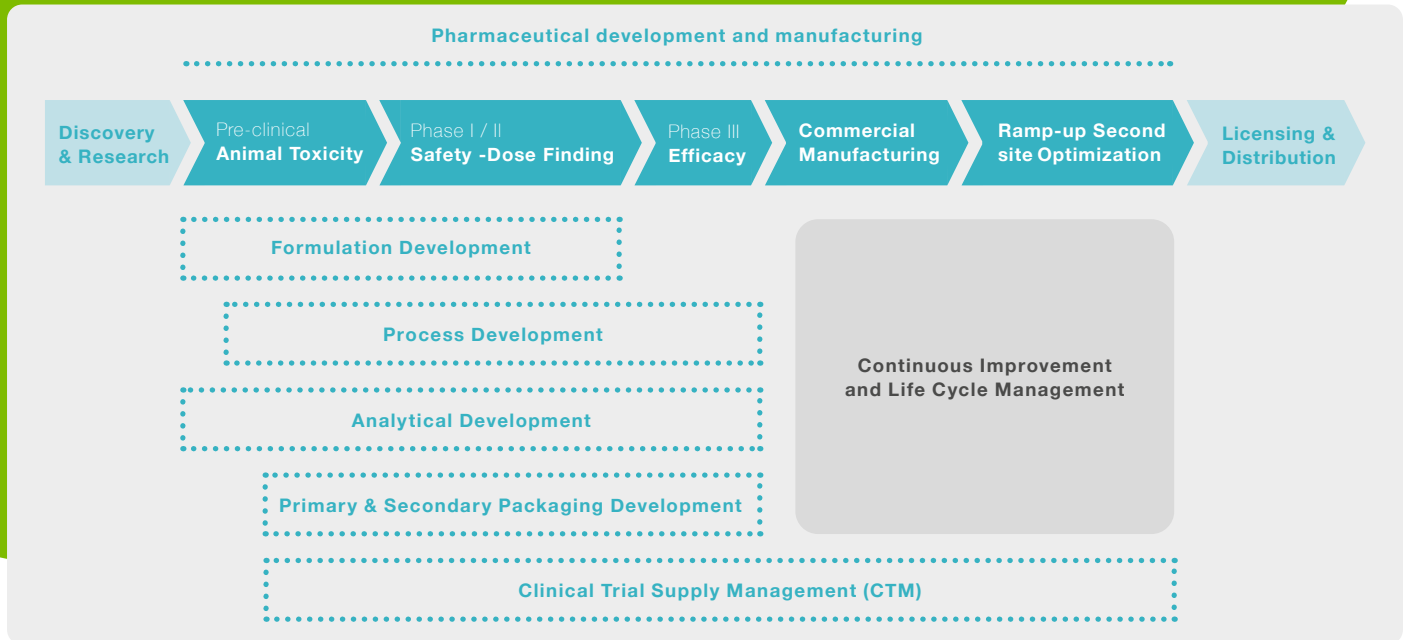

www.aenova-group.com

Full-Service from a Competent and Reliable Partner

With our services we cover the full product life-cycle from pre-clinical development to commercial supply.

The Aenova CDMO offer

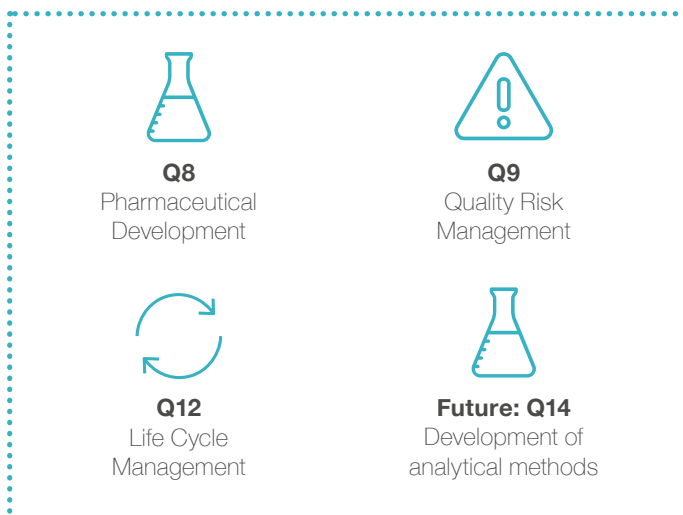

OUR SERVICE OFFER

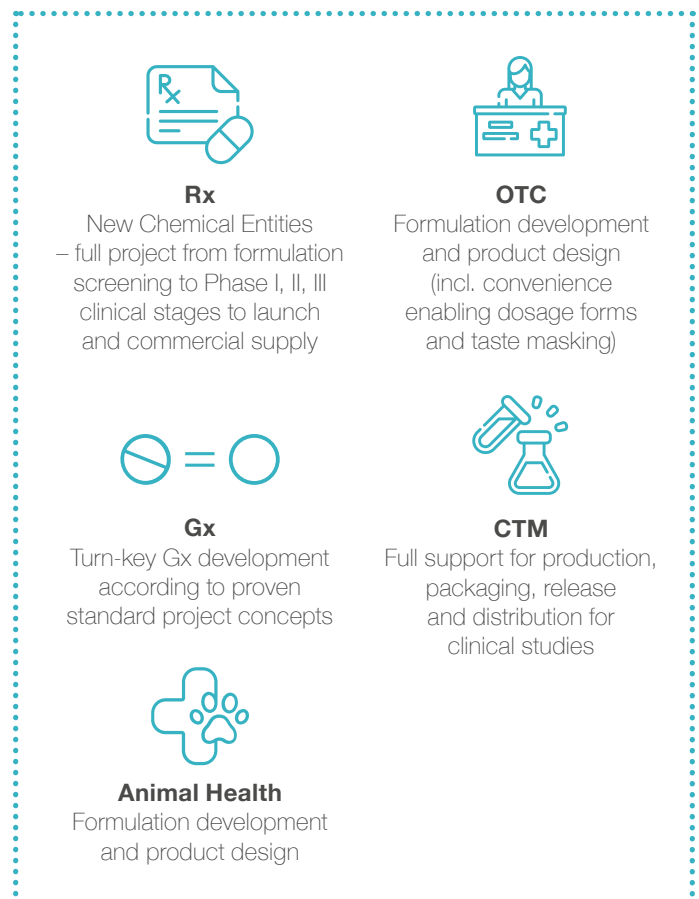

Experience the One-Stop Shop

We take care of the development of your products for worldwide markets and you benefit from our special expertise for launches in **USA, EU, South America** and **other countries world-wide**.

In line with ICH (International Council for Harmonisation of Technical Requirements for Pharmaceuticals for Human Use)

For all market spaces

Rx

New Chemical Entities – full project from formulation screening to Phase I, II, III clinical stages to launch and commercial supply

OTC

Formulation development and product design (incl. convenience enabling dosage forms and taste masking)

Gx

Turn-key Gx development according to proven standard project concepts

CTM

Full support for production, packaging, release and distribution for clinical studies

Animal Health

Formulation development and product design

SITES

A Strong Network with Large Development Capacities

15 specialized sites in the Aenova network enable comprehensive development capacities for all dosage forms.

- Transfer Service
- Center of Excellence

6
Development Centers of Excellence covering all dosage forms

14
Manufacturing sites

SOLID DOSAGE FORMS
(OEB 1-3)

Extensive portfolio of solid dosage forms with focus on complex products, e.g. designed release properties and highly customized solutions

Marburg, Sisseln

SOLID DOSAGE FORMS
(ONCOLOGY APIS OEB 4-5)

Extensive portfolio of solid dosage forms containing oncology and immunosuppressant APIs, including specific product design

Regensburg

SOLID DOSAGE FORMS
(HORMONES OEB 4-5)

Solid dosage forms containing high potent hormones and hormone-like substances, including micro dosed APIs

Münster

INHALATION

Development of dry powder inhalation products, including HPAPI handling

Münster

STERILE LIQUIDS
(OEB 1-3)

Parenteral formulations: sterile powder, lyophilization products, liquid ampoules and vials

Latina

SOFT GELATIN CAPSULES

Softgel capsule development including high-potent APIs and complex formulations

Kirchberg

CLINICAL TRIAL MANAGEMENT

Bulk production of all solid, sterile and semi-solid dosage forms. Including clinical trial supply management (e.g. packaging, blinding, logistics)

Gronau

REGULATORY SUPPORT

Supporting your regulatory submission strategy and dossier compilation

Marburg

KEY FACTS & FIGURES

The Reliable Partner for a One-Stop Shop Experience

Solid Dosage Forms

Tablets

Hard capsules

Capsule dry powder inhalation

Specialty

Parenterals

Vials

Syringes

Fill and Finish Capabilities

Semi-Solids

Tubes and jars

Nasal spray

Suppositories

Liposomes

Soft Gelatine Capsules

Standard SGC

VegaGels®

We cover all conventional applications and beyond. With our specialization in:

- High potent solids
- Hormones & hormone-likes
- Cytotoxics & cytostatics
- Inhalation products
- Moisturesensitive solids
- Beta Lactams
- Designed release
- Improved bioavailability
- Soft gelatin capsules
- Semisolids / liquids
- Suppositories
- Convenience enabling dosage forms
- Taste masking
